SUMMARY

Engineering leader with 18+ years building and operating large-scale distributed systems. Currently leads AI platform engineering, covering agent runtimes, evaluation, and secure cloud-native infrastructure. Pursuing an MS in Computer Science and Artificial Intelligence to deepen systems, GPU computing, and generative model foundations.

EDUCATION

Boston University — MS, Computer Science & Artificial Intelligence (online) Fall 2026 – Present

Columbia Engineering, Executive Education — Artificial Intelligence Program (certificate) Sep 2024

Indian Institute of Foreign Trade (IIFT) — Executive Post Graduate Diploma in Business Administration 2011 – 2013

Dr. A.P.J. Abdul Kalam Technical University — B.Tech, Computer Science 2003 – 2007

PROFESSIONAL EXPERIENCE

The Boston Consulting Group (BCG) — Senior Manager, GenAI Mar 2020 – Present

- Lead AI platform engineering for a globally distributed team, building and evaluating agent runtimes and templates across major cloud providers.
- Drive evaluation and observability practices for LLM and agent quality and safety, including monitoring, tracing, and red teaming.
- Standardize and automate provisioning of GenAI environments using Infrastructure-as-Code.
- Partner with product, architecture, security, and UX in an Agile model; hire, mentor, and develop engineers.

Cengage Learning — Tech Lead Jan 2017 – Mar 2020

- Led development of a subscription-based digital learning platform; managed a globally distributed team of 8–10 developers.
- Owned technical strategy, architecture, and Epic/Story estimation with Product Managers; built reusable proofs of concept and ran code reviews.
- Delivered responsive, accessibility-compliant (a11y) web applications; implemented CI/CD with Git, Jenkins, and Artifactory.

TechMahindra — Software Engineering Manager / Senior Software Engineer Aug 2010 – Nov 2016

- Led development of a trading communications platform used by major global financial institutions; drove hiring and Agile/TDD delivery.
- Built UI frameworks and reusable components with AngularJS, React, TypeScript, and Angular Material; developed RESTful services and MySQL-backed data models.
- Built a VBA-based Excel framework for bulk data management that was widely adopted by end users.

Birlasoft — Software Engineer Jul 2007 – Aug 2010

TECHNICAL SKILLS

AI & Agents: Agent runtimes and templates, LLM/agent evaluation, observability, and red teaming
Cloud & Platform: AWS, Azure, GCP, Infrastructure-as-Code, CI/CD (Git, Jenkins, Artifactory), secure environment design
Languages & Web: TypeScript, SQL/MySQL, VBA, Angular/AngularJS, React, Angular Material, REST services
Practices: Agile, Test-Driven Development, automation testing, team leadership and hiring
